

# **Secure Outcomes Selected “Vendor of the 2018 Year” by the Arkansas Chiefs of Police Association**

## **Company Continues to Win Accolades for its LiveScan Fingerprinting Products and 24/7/365 Support and Service**

*For Immediate Release: Tuesday, 4 September 2018*

**Evergreen, CO, September 4, 2018** -- Secure Outcomes Inc. announced today that the Arkansas Chiefs of Police Association has selected the company for its annual “Vendor of the 2018 Year” award.

The Arkansas Chiefs of Police Association (ACCP) is the largest law enforcement organization in the state with several hundred chiefs of police members. The ACCP continually works to enhance the knowledge and skills of police executives so they can effectively meet the growing demand for the best possible law enforcement tools and methods available. The ACCP also advances the science of police administration and crime prevention and disseminates professional administrative practices, fosters police cooperation and exchanges information and experiences throughout the state.

Jack Harper, CEO of Secure Outcomes, said, “We have 70+ customer sites in Arkansas and most are police departments, but also a large federal airport and a district court. We here at Secure Outcomes are deeply honored and humbled to receive this award. It is wonderful for our efforts and hard work to be recognized by ACCP.”

Chief Gary Sipes (Ret.), ACCP Executive Director said, “It is with great pleasure of the Association to name Secure Outcomes the distinction of 2018 ACCP Vendor of the Year award. Secure Outcomes has provided several agencies in Arkansas with reliable products such as the LS fingerprinting system. Mr. Harper and Secure Outcomes have supported our Association and our members throughout the years and we wanted to extend our appreciation by giving them this distinguished award.”

Harper and Andy Albiez/Sales Executive for Arkansas will accept the formal award for all the people of Secure Outcomes at the convention banquet in Rogers, Arkansas in late September.

### **About Secure Outcomes**

Secure Outcomes designs and builds the industry's easiest to use, most cost effective and best supported digital livescan fingerprinting systems available. The fast growing Secure Outcomes customer base of approximately 400 users includes well over 100 police departments, the U.S. Army and U.S. Air Force, the U.S. Department of Veterans Affairs, major federal airports, a federal government financial agency with over \$1-trillion in assets, over 100 large public school districts, Fortune 500s, over 100 Class III NFA firearms manufacturers and dealers, commercial enterprises and many others across the country.

The LS family of digital livescan fingerprinting systems collect, archive and transmit forensic-quality fingerprint sets. The separate products are designed to inexpensively fulfill the demanding requirements of law enforcement, public schools, firearms dealers, military, banks, commercial and local, state and federal government users.

The Secure Outcomes systems also include optional military-grade data encryption to further protect sensitive fingerprint and other information.

Secure Outcomes systems are designed to operate anywhere in the world and are 100% programmed in Common Lisp, the artificial intelligence applications development language. U.S Patents 9,569,655, 9,342,732, 8,676,046 and 8,331,775.
